STATEMENT OF REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The Examiner, upon reconsideration, now agrees with the rationale set forth in applicants' Appeal Brief dated July 26, 2004. In particular, the Examiner agrees with applicants' argument set forth on the fourth page of the Appeal Brief wherein the method and article claims have since been amended to include the fact that the prosthesis and a human or animal body are the substrates. Applicants then correctly note that Fabo (WO -076) fails to disclose anything relating to adhering a prosthesis to a human or animal body using a silicone gel adhesive and since a suitable motivational statement must be present in the primary reference of a Jepson type claim in order to combine the references as the Examiner has done to arrive at the claimed processes and article, the Examiner's rejection must fail. Accordingly, the prior art rejection of record has been withdrawn and the application is being passed to issue.

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
